

Tech Corner

Hello Parents and Students,

In the following weeks you will receive ParentSquare notices from me regarding technical issues your student may encounter. I will also post the same information on our school website.

<https://brookhurst.ggusd.us>

If you are unable to sign into your **Google account**, email me with the following information:

Student name

ID no.

Birthday: MM/DD/YYYY

I will reset your students password.

GGUSD Chromebooks already have ClassLink loaded

If your child is using a personal device from home you can access ClassLink:

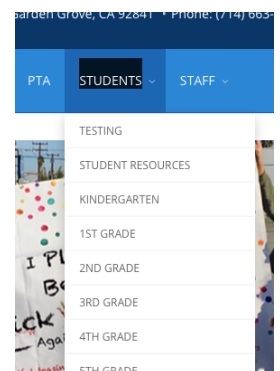

Portal at: <https://launchpad.classlink.com/ggusd>

or from your school website.

<https://brookhurst.ggusd.us>

From your school website, go to

- Students
 - Select your students grade level
 - Each grade level has a link to ClassLink, select that link and you will be taken to the GGUSD ClassLink Portal.
 - Your student can sign in using their Google Username and Password
 - From there they will be able to have access to Wonders, Pearson Math and more. Your student must sign into these websites once, with their username and password (provided by their teacher) there after they will only need to sign into ClassLink to access these websites.
- Feel free to explore our website, I have created links that I hope your student will find useful and maybe even fun. In the following weeks, I intend to send out links highlighting websites for your student.

Stay Safe and Healthy,

Teri Iwaki
